Screw Flights

Our screw flights are used in many industries, from the chemical and cement industries through to the food industry. They perform tasks such as conveying, dosing, mixing and crushing.

AMF-Bruns manufactures all required designs:

- » Single flights
- » Serrated flights
- » Mixing paddles
- » Conical flights
- » Flights with bolted wear elements
- » Flights with hardfaced weld overlay
- » Ribbon flights (also with crosspieces)

With flexible dimensions:

- » Outside diameter: 30 to 3,500 mm
- » Material thickness: 2 to 40 mm

In materials matched to your requirements:

- » Mild steel
- » Stainless steel
- » Heat-resistant steel
- » Wear-resistant steel
- » Brass
- » Plastic
- » Other materials on request

Your benefits with AMF-Bruns screw flights:

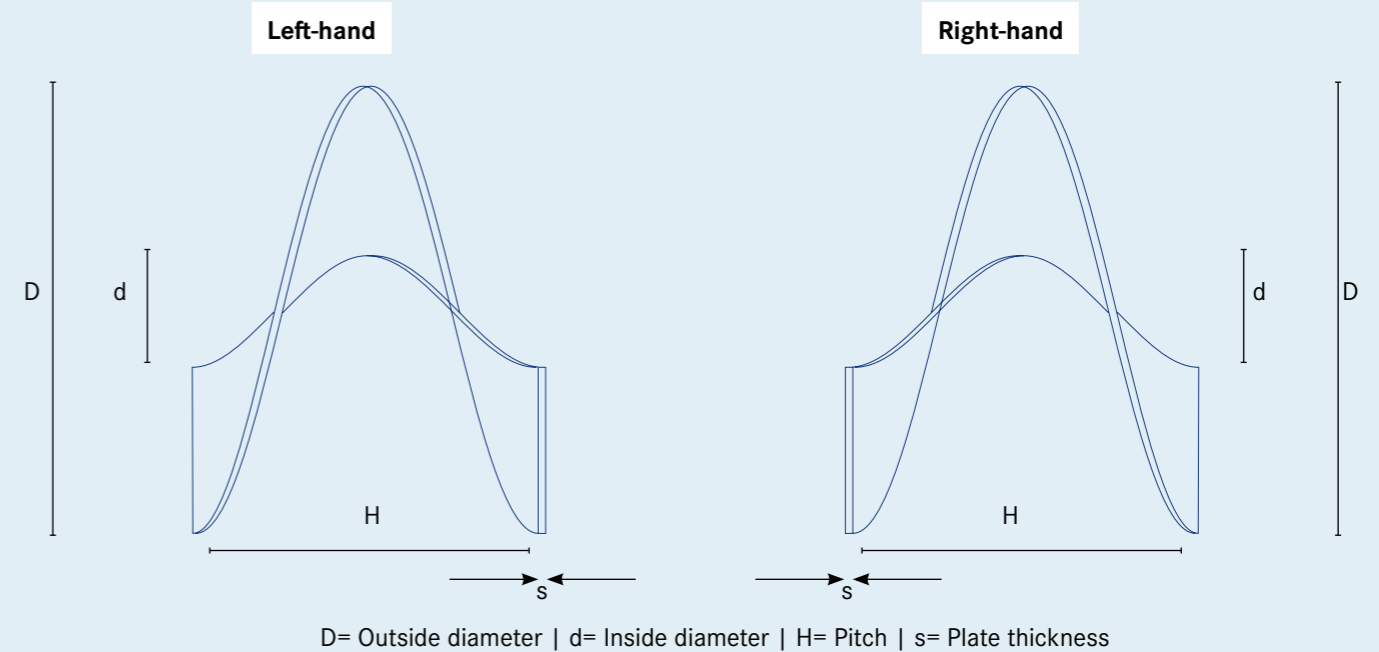

- AMF-Bruns manufactures screw flights for conveying a wide variety of bulk materials: dry, wet, hot, coarse and fine materials, such as wood chips, sugar beet, lime, sand and many more.
- High manufacturing standards
